

Memorandum

*Flex your power!
Be energy efficient!*

To: DEPUTY DISTRICT DIRECTORS, Construction
DEPUTY DIVISION CHIEF, Structure Construction
CONSTRUCTION MANAGERS
SENIOR CONSTRUCTION ENGINEERS
RESIDENT ENGINEERS

Date: February 29, 2008

File: Division of Construction
CPD 08-1

From: MARK LEJA
Chief
Division of Construction

Subject: Day After Thanksgiving—Nonworking Day

The day after Thanksgiving has traditionally been charged as a working day. In accordance with a recent amendment to the 2006 *Standard Specifications*, the day after Thanksgiving is now a nonworking day.

For ongoing contracts that do not have the amendment to the 2006 *Standard Specifications* mentioned above, resident engineers may consider the day after Thanksgiving a nonworking day on the weekly statement of working days with an approved contract change order. This construction procedure directive (CPD) serves as blanket approval of these contract change orders.

The five-day and seven-day construction calendars have been updated to indicate the day is a nonworking day. In addition, the day numbering following this day has been revised to reflect this change.

A copy of the updated 2008 five-day construction calendar is attached. The updated five-day and seven-day construction calendars for 2008 through 2020 are posted on the Division of Construction internet website.

If you have questions about this CPD, please contact Perry Mayer, Office of Contract Administration, Division of Construction, at (916) 653-2032.
