

CONTRACT CHANGE ORDER

Sheet 1 of 2

CEM-4900 (REV 05/2001) CT# 7541-3501-0

Change Requested by: ☐ engineer ☒ contractor

CCO NUMBER	SUPPL. NUMBER	CONTRACT NUMBER	ROAD	FEDERAL NUMBER(S)

TO

contractor

You are directed to make the following changes from the plans and specifications or do the following described work not included in the plans and specifications for this contract. **NOTE: This change order is not effective until approved by the engineer.**

Description of work to be done, estimate of quantities and prices to be paid. (Segregate between additional work at contract price, agreed price and force account.) Unless otherwise stated, rates for rental of equipment cover only such time as equipment is actually used and no allowance will be made for idle time. The last percentage shown is the net accumulated increase or decrease from the original quantity in the engineer's estimate.

The Contractor has requested a digital terrain model (DTM) and a digital design model (DDM) or the electronic design files for the Contractor to create both a DTM and DDM so that automated machine guidance systems may be used on the project.

The Department shall provide the project DTM and DDM or the electronic design files needed to produce a DTM and DDM to assist the Contractor in the use of machine guidance technology on the project.

The Contractor agrees that the State of California, including its officers, employees, and agents shall not be responsible for the accuracy and completeness of electronic design data provided by the Department because of this change order.

The Contractor is responsible for converting files as necessary and ensuring electronic design data is compatible with their selected automated machine guidance system. Any use of the electronic design data is done at the Contractor's own risk.

Information contained in the electronic design data shall not supersede nor conflict with Section 5-1.07, "Lines and Grades," of the *Standard Specifications*. The special provisions, plans, *Standard Specifications* and *Standard Plans* shall govern over the electronic design data.

The electronic design data provided by the Department because of this change order shall be for the Contractor's informational use. The Contractor and Department mutually agree that electronic design data shared with the Contractor because of this change order shall in no way be construed to be part of this contract.

In consideration of the terms as specified in this change order and the submission of electronic design data to the Contractor, the Contractor agrees to release the Department from any claims that may arise as a result of the use, by the Contractor, of the electronic design data provided by the Department.

No Cost

There will be no cost or credit to the state because of this change order.

No Time Adjustment

There will be no contract time adjustment because of this change order.
