iEWB System Release Information
(v2.2.8)

TITLE	DESCRIPTION
Automatically Deactivate User Account After 90 Days of Inactivity	When a user tries to log on the system, having no activity during the last 90 days, they are inactivated and an error message occurs indicating to contact the appropriate iCAS district administrator to reactivate the account. No system generated e-mail will be received by the user upon reactivation. The system will begin checking inactivity from today 5/14/2009.
Populating "Work Performed For" Field	(1) When a user, with a SUB_ENTRY role, enters a bill for a contract where there is no assigned primary contractor, the "Work Performed For" field will show "None Assigned". (2) When a user, with an EWB_ENTRY role or a CONTRACTOR role, enters a bill for a contract where there is no assigned primary contractor, the "Work Performed For" field will show the contractor company's name. (3) When a user, with a SUB_ENTRY role, enters a bill for a contract where there is a primary contractor assigned, the "Work Performed For" field will show the primary contractor company's name.
Change Menus to Indicate CEM Form Numbers and Other Changes	For clarification, form numbers have been added and other administrative changes .
Warning (error message) to stop users with an EWB_ENTRY role from getting e-mails occurs when "Receive Email" box is unchecked	When a district administrator changes a user's role to EWB_ENTRY or SUB_ENTRY from any role that can receive e-mails that has the "Receive Email" box checked under the "Contract Assignment" table, the "Receive Email" box is unchecked.
Users cannot change data entered for travel expenses under the "Other" field on the "Labor" tab	When a user enters values on the "Other" field under the "Labor" tab incorrectly and gets an error message, the user will be allowed to fix the error without further messages before saving while on the "Labor" tab. If the data is still incorrect, the user will get an error message after trying to save the "Labor" tab.
Organization WITHOUT users are not visible to prime contractor since contracts cannot be assigned	Prime contractors are now able to view subcontractor's bills that are entered by the prime contractor. However, prime contractors must inform the appropriate district iCAS administrator, in writing, that the prime contractor will be entering their subcontractor's bills.
Users with an RE or RE_AUTHORITY receives duplicate e-mail messages	E-mail messages will now only be sent out when a bill's status changes. Previously, all minor changes to the "Title" page were recorded and emails were sent even when the status had not changed to another state that should send out a new e-mail message.
